1. Students have 60 minutes to finish their report, including an English oral presentation in 30 minutes and 30 minutes of professors' instruction and classmates' discussion. The presentation materials must be in English as well.
- *The Grade 2 (the 4th semester) students of the Master's program should report their research progress.
2. The reporter should invite their advisor, co-advisor, and at least three professors with related specialties to the class.
3. The moderator could request another presentation next week, depending on the reporter's performance.
4. After confirming the title with the advisor, students must submit their reports to the department office before noon on that Monday ahead of their presentation and also upload PowerPoint to moodle three days before their presentation.
5. Course time : 9:10-11:00 A.M. every Friday
6. Classroom : **5B03 Hu-Chu Building**
7. Except for the following evaluation standards, students may refer to the "Regulations on Seminar of Journal Articles"(in Chinese) for more information.

The average score of the course this semester :

- (1) **Attendance** (10%)
Students should request leave if they can't attend the class; being late or excused will deduct the score. Please notice that the score will be zero due to three times of absences without requests.
- (2) **Literature abstract and announcement** (10%)
Students should write an abstract with a comprehensive understanding of the literature. A late announcement will deduct the score, so please complete it on time.
- (3) **Content** (70%)
Professors in the class will score the student's performance by the realization of the literature, clear presentation, and appropriate responses to the questions.
- (4) **Discussion** (10%)
Each student should raise questions at least four times a semester and hand the question sheet to the reporter after the seminar. Once the reporter lists the above in the meeting minutes, students will get this part of the score.
- (5) Doctoral program students should report their research progress in this Seminar Course before the Degree Examination since Academic Year 2021 (rules apply to the students after the Academic Year 2010 enrollment).
